Allgrip™

SUPERIOR FIXINGS AND FASTENERS
ENGINEERED FOR EVERY FIX

Allgrip™

ALLGRIP™ IS A BRANDED RANGE OF SUPERIOR FIXING AND FASTENER PRODUCTS CERTIFIED TO THE MOST STRINGENT QUALITY STANDARDS.

John Murphy Castlerea Ltd. is home to the iconic Allgrip™ brand and has been a trusted Supplier to leading builders' merchants for over 30 years throughout the island of Ireland and UK, backed up by best-in-class service and technical support.

Following its acquisition in March 2023 by the Sanbra Group, Allgrip™ John Murphy Castlerea Ltd. has ambitious growth plans for the Irish Fixings and Fasteners market with further investment and trade support planned in 2024.

CONTENTS

FASTENERS & FIXINGS

Anchors	1	1-8
Nuts, Bolts, Washers	2-3	9-25
Nails	3	26-29
Screws	3-4	30-37

Allgrip™

NEW ALLGRIP™ CUTTER THREAD PREMIUM WOODSCREWS

Allgrip™ Cutter Thread Premium Woodscrews have been designed for hardwoods and softwoods and come in a range of sizes.

Countersunk and deep reinforced head with precision Pozi drive feature ensures strength and superior bit fit.

Sharp 25 degree cutter point screw with invisible lubricant provides lower driving resistance, faster insertion, rapid installation and improved rust-resistance.

Nailers

Brad Nailer S200BN 1,2MM (AX)

JMC Code
448000022

Applications:
Furniture repair, cabinets, drawer assembly, case backs, chair rails, picture frames, and ornamentals.
Features:
•Adjustable depth of drive •Comfort grip •Aluminum die casting •No mar pad with on tool storage •Rotatable exhaust cover •Belt hook adjusts for right or left hand •Reload indicator •Quick EZ-clear latch provides quick and easy clearing of occasional jams

Specifications:
Length: 251 mm
Width: 68 mm
Height: 232 mm
Firing mode: Restrictive
Air inlet size A: 1/4" female
Air inlet standard A: NPT
Air inlet unit A: inch
Air consumption (at 60 shots per minute): 21.6 l/m
Sound pressure level (Lpa): 91 dB
Sound power level (Lwa): 104 dB
Gauge: 18 ga.
Magazine capacity: 107 pieces
Includes case: Yes
Shots / second: 5
Collation type 1: Glue collated
Fastener head type 1: Medium head
Collation angle: 0 º
Fastener type: Brads
Oil free: No
Air inlet 1: 1/4" female NPT
Operating pressure: 4.8-8.3 bar
Operating temperature range: -18-49 °C
Fastener length 1: 16-50 mm
Fastener diameter 1: 1.18-1.2 mm
Warranty: 1 year
Tool weight: 1.43 kg

Finish Nailer FinishPro30XP 1,8mm (DA)

JMC Code
448802002

Applications:
Baseboards, cabinets, case goods, caskets, chair rails, decorative trim, door & window casing, sash & millwork, exterior trim, finish applications/trim, furniture and paneling.
Features:
•Light weight – 1,73kg •NeverLube® design •Belt hook – attached to either side •Adjustable depth-of-drive •EZ-Clear™ latch •Adjustable exhaust for user comfort •Ergonomically designed comfort grip handle •No-Mar pad – to protect work surfaces

Specifications:
Length: 305 mm
Firing mode: Dual
Air inlet size A: 1/4" female
Air inlet standard A: NPT
Air inlet unit A: inch
Air consumption (at 60 shots per minute): 61.2 l/m
Sound pressure level (Lpa): 79 dB
Sound power level (Lwa): 92 dB
Gauge: 15 ga.
Magazine capacity: 104 pieces
Includes case: Yes
Collation type 1: Taped strip
Fastener head type 1: Brad head
Collation angle: 34 º
Fastener type: Finish nails
Oil free: Yes
Air inlet 1: 1/4" female NPT
Operating pressure: 4.8-8.3 bar
Operating temperature range: -18-49 °C
Fastener length 1: 25-50 mm
Fastener diameter 1: 1.73-1.77 mm
Air inlet size A number: 1/4 female
Warranty: 5 years
Tool weight: 1.73 kg

SGT90I CH 90MM FRAMING GAS TOOL UK

JMC Code
448000078

Applications:
Truss building, framing, sub-flooring, sheathing and decks. Other applications include crate and box assembly, pallet making and fencing. Great for any application where cordless convenience would be a benefit.
Features:
•Cordless convenience - no hoses, no compressors, no hassles. Navigate the job site with no restrictions •Powerful motor - high-voltage ignition gives you more power and cleaner combustion •Consistent drives In all Weather conditions – performs optimally between -7° to 49°C •Durable metal magazine – rugged design outlasts plastic •Tool-free, metal thumbwheel depth-of-drive – easily control fastener depth with no tool required

Specifications:
Length: 374 mm
Firing mode: Restrictive
Sound pressure level (Lpa): 96.2 dB
Sound power level (Lwa): 100.8 dB
Shank type fastener 1: Smooth shank
Magazine capacity: 70 pieces
Fuel cell: Yes
Includes case: Yes
Voltage (ac): 230 V
Frequency: 50&60 Hz
Electrical plug type: Continental
Battery type: Li-Ion
Battery voltage: 7.2 V
Battery ampere rating: 2.5 Ah
Shots per charge: 8000
Number of batteries in kit: 2 pieces
Collation type 1: Paper collated
Fastener head type 1: Clipped head
Collation angle: 34 º
Fastener type: CH stripnails
Operating temperature range: -7-49 °C
Fastener length 1: 50-90 mm
Fastener diameter 1: 2.87-3.3 mm
Warranty: 2 years
Tool weight: 3.6 kg

SGT90I & GT65I-RX Gas Nail Gun 1st & 2nd Fix 2 Tool Kit 4VS7021N1

JMC Code
448000096

WHAT'S INCLUDED
- 1x SGT90i 1st Fix Gas Nailer
- 1x GT65i-RX 2nd Fix Gas Nailer
- 2x Li-ion Batteries
- 1x Charger
- 1x SENCO Tool Bag

SGT90i
Applications:
Truss building, framing, sub-flooring, sheathing and decks, crate and box assembly, pallet making, fencing.
Features:
•Cordless convenience - no hoses, no compressors, no hassles and navigates the job site with no restrictions •Powerful motor - high-voltage ignition gives you more power and cleaner combustion •Consistent drives In all weather conditions – performs optimally between -7° to 49°C •Durable metal magazine – rugged design outlasts plastic •Tool-free, metal thumb wheel depth-of-drive – easily control fastener depth with no tool required

SGT90i

GT65i-RX

GT65i-RX
Applications:
Finish and trim, baseboard, cabinets, decorative trim, furniture trim, door & window casing.
Features:
•Cordless convenience - no hoses, no compressors, no hassles and navigates the job site with no restrictions •Powerful motor - high-voltage ignition gives you more power and cleaner combustion •Full comfort grip reduces fatigue •Belt hook provides positive storage while not in use •Rear loading therefore quick and easy for right or left handed users •Dry fire lock out •No-mar pad to protect the work piece •Easy clear enables jam clearance without tool disassembly •Metal magazine for increased durability •Tool-free thumbwheel depth-of-drive adjustment - easily control fastener depth with no tool required •Consistent drives in all weather conditions - performs optimally between -7° to 49°C

SGT90i
Specifications:
Battery Type: Li-Ion
Battery Voltage: 7.20v
Battery Ampere Rating: 2.50 Ah
Fastener Type: CH Strip Nails
Firing Actuation: Restrictive
Tool Dimensions (LxWxH): 374x108x378mm
Magazine Capacity: 70 Pcs
Fastener Length: 50-90 mm
Voltage (ac): 230v
Frequency: 50&60 Hz
Electrical Plug Type: Continental
Shots per Charge: 8000
Number of Batteries in Kit: 2
Fuel Cell: Yes
Length Fuel Cell: 165 mm
Shots per Fuel Cell: 1200
Fuel Cell Type: 40 gram
Collation Angle: 34 º
Sound Pressure Level (Lpa): 96.2 dBA
Sound Power Level (Lwa): 100.8 dBA
Vibration Level: 2.67 m/s²
Warranty: 2 years

GT65i-RX
Specifications:
Fastener Type: Finish Nails
Firing Actuation: Restrictive
Tool Dimensions (LxWxH): 312x86x300mm
Fastener Length: 19-65mm
Fastener Driving Power: 32 J
Magazine Capacity: 100 Pcs
Collation Type 1: Glue Collated
Collation Angle: 0 Degrees
Voltage (AC): 230v
Frequency: 50 Hz
Battery Type: Li-Ion
Battery Ampere Rating: 2.5Ah
Battery Voltage: 7.2v
Recharge Time To 100%: 120 Minutes
Shots Per Charge: 8,000
Fuel Cell Length: 80 mm
Fuel Cell Type: 18g / 30ml
Shots Per Fuel Cell: 1200
Warranty: 2 years
Tool Weight: 2.17kg

FinishPro18BL, FinishPro35BL & SLS18BL 3 Tool Kit 10S2001N

JMC Code
448000080

WHAT'S INCLUDED
- 1x FinishPro 18 BL Brad Nailer
- 1x FinishPro 35 BL Finish Nailer
- 1x SLS18BL Stapler
- 2x Hexagonal Wrenches
- 1x Canvas Carry Bag With Compartments

FINISHPRO18BL
Features:
•Ultra light machine with the well-known SENCO reliability •Comfortable machine for the toughest jobs, with a professional result •Shoots 1.2mm brads (AX) from 16mm to 50mm length •Oil-free design •Adjustable trigger •Air outlet at the rear •Rotating belt hook

FINISHPRO35BL
Features:
•Ultra light machine with the well-known SENCO reliability •Comfortable machine for the toughest jobs, with a professional result •Shoots 1.8 (DA) nails from 32 to 65 mm in length •Oil-free design •Adjustable trigger •Reverse air outlet •Rotating belt hook •Built-in air gun

SLS18BL
Features:
•Ultra light machine with the well-known SENCO reliability •Comfortable machine for the toughest jobs, with a professional result •Handles L staples with 5.6 mm crown width in lengths from 15 to 40 mm •Oil-free design •Adjustable trigger •Air outlet at the rear •Rotating belt hook

FINISHPRO18BL
Specifications:
Air Consumption (60 shots p/m): 68 l/min
Air Inlet Size A: 1/4" Female
Roll Angle: 0 °
Roll Type: Glue Bound
Attachment Head: Medium Head
Attachment Type: Brads
Activation Setting : BF / TF
Height: 247.6 mm
Length: 266.7 mm
Width: 63.5 mm
Magazine Capacity: 110 pcs
Max Diameter Mounting: 1.2 mm
Max Length Mounting: 50 mm
Min Diameter Mounting: 1.18 mm
Min Length Mounting: 16 mm
Oil-Free: Yes
Working Pressure Max: 8.3 bar
Working Pressure Min: 4.8 bar
Working Temperature Max: 49 °C
Working Temperature Min: -18 °C
Shaft Type Mounting: Smooth Shaft
Sound Power Level (Lwa): 78.8 dB
Sound Pressure Level (Lpa): 68 dB
Measuring: 18 Ga
Head Length: 0.9-1.1 mm
Head Length (CH) max: 1.1 mm
Head Length (CH) min: 0.9 mm
Head Width: 1.9-2.1 mm
Head Width (CH) max: 2.1 mm
Head Width (CH) min: 1.9 mm

FINISHPRO35BL
Specifications:
Mounting Type: Finish Nails
Activation Setting: BF / TF
Air Consumption (60 shots p/m): 90.6 l/min
Measuring: 15 Ga
Oil-Free: Yes
Working Pressure: 4.8-8.3 Bar
Mounting Length: 32-65 mm
Mounting Diameter: 1.73-1.77 mm
Magazine Capacity: 110 pcs
Working Temperature Range: -18 to 49 °C
Roll Angle: 34 º
Air Inlet: 1/4" Female
Tool Weight: 1.1 kg

SLS18BL
Specifications:
Roll Type: Glue Bonded
Fastening Type: L Wire Staple
Activation Setting: BF / TF
Height: 241 mm
Length: 260 mm
Width: 63.5 mm
Shots per Second: 5
Measuring: 18 Ga Staple
Air Consumption (60 shots p/m): 68 l/min
Air Inlet: 1/4" Female
Roll Angle: 0 °
Mounting Length: 9.5-38 mm
Magazine Capacity: 110 pcs
Max Length Mounting: 38 mm
Min Length Mounting: 9.5 mm
Net Weight: 1.17 kg
Oil-Free: Yes
Working Pressure Max: 8.3 bar
Working Pressure Min: 4.8 bar
Working Temperature Max: 49 °C
Working Temperature Min: -18 °C
Sound Power Level (Lwa): 78.9 dB
Sound Pressure Level (Lpa): 67.9 dB

SFT10XP-A/D LW Stapler

JMC Code
448000041

Applications:
Upholstering operations, furniture assembly, cabinets, automotive vinyl roofs and interior trim, bedding manufacture, TV and stereo grille cloth, picture frames, shoemaking, molding and roofing felt.
Features:
•Heavy-duty steel cap - superior balance with minimal recoil •One-handed magazine opening - increased productivity with less downtime •Rear exhaust - directs oil and dust away from the work surface •Comfort grip - reduces fatigue •Short trigger stroke - quick and precise operation

Specifications:
Length: 218 mm
Firing mode: Trigger fire
Air inlet size A: 1/4" female
Air inlet standard A: NPT
Air inlet unit A: inch
Air consumption (at 60 shots per minute): 23 l/m
Sound pressure level (Lpa): 81.9 dB
Sound power level (Lwa): 92.1 dB
Staple type 1: A staple
Gauge: 22 ga.
Magazine capacity: 180 pieces
Includes case: No
Collation type 1: Glue collated
Collation angle: 0 º
Fastener type: Staples
Oil free: No
Air inlet 1: 1/4" female NPT
Operating pressure: 4.1-6.5 bar
Operating temperature range: -18-49 °C
Fastener length 1: 10-16 mm
Air inlet size A number: 1/4 female
Warranty: 5 years
Tool weight: 1 kg

JMC Code
448000025

Applications:
For house wrap and roofing felt installation.
Features:
•Cap capacity - 110, cap collation - laser weld stack or wire collated •Easy load system for staples and caps •Aluminum housing - lightweight 2kg, for ease of handling •Balanced and fast for high production •Belt hook - lets the tool go where you go •Side mount cap collator - holds caps regardless of tool position

Specifications:
Length: 317 mm
Firing mode: Restrictive
Air inlet size A: 1/4" female
Air inlet standard A: NPT
Air inlet unit A: inch
Air consumption (at 60 shots per minute): 21.8 l/m
Sound pressure level (Lpa): 56.7 dB
Sound power level (Lwa): 99.7 dB
Staple type 1: BC staple
Gauge: 21 ga.
Magazine capacity: 110 pieces
Includes case: No
Collation type 1: Glue collated
Collation angle: 0 º
Fastener type: Staples
Oil free: No
Air inlet 1: 1/4" female NPT
Operating pressure: 5.5-7 bar
Operating temperature range: -18-49 °C
Fastener length 1: 12-16.5 mm
Air inlet size A number: 1/4 female
Warranty: 1 year
Tool weight: 2 kg

GT40FS, Fencing Stapler

JMC Code
448000069

Applications:
Fencing, agriculture, gardening, and wire-to-wood stapling.
Features:
•Cordless convenience - no hoses, no compressors, no hassles. Navigate the job site with no restrictions •Powerful motor - high-voltage ignition gives you more power and cleaner combustion •Consistent drives in all weather conditions - performs optimally between -7° to 49°C •Three-step loading sequence - quick and easy •Tool-free, metal thumbwheel depth-of-drive - easily control fastener depth with no tool required

Specifications:
Length: 373 mm
Firing mode: Restrictive
Sound pressure level (Lpa): 97.2 dB
Sound power level (Lwa): 100.2 dB
Gauge: 10 ga.
Magazine capacity: 78 pieces
Includes case: Yes
Collation type 1: Taped strip
Collation angle: 0 º
Fastener type: Staples
Operating temperature range: -7-49 °C
Fastener length 1: 25-40 mm
Warranty: 2 years
Net weight: 3.73 kg

Masonry Connectors - Crocodile Wall Extension Profile

Solution to the tying-in of new walls to existing masonry walls/columns. The only system with “snap out” ties which can be positioned anywhere along the channel for a universal fit.
The C2K Crocodile Wall Starter is a quality engineered wall connector system that has been developed for use with most brick and block modules. This system has been designed for multi-purpose use where reliability and durability are important requirements. It provides lateral support to masonry wall panels in conversion, extension and new building work.

- BBA approved for up to 8m, 3 storey work
- Accommodates 10mm of vertical movement
- Adjustable anchor ties to accommodate variation in brick courses
- All fixings and ties provided with the packs

The multi-purpose ‘no flange profile’ that has been designed to cater for brick and block walls of widths from 60 to 250mm. Ideal for internal and external applications where both sides of the new wall are to be fair faced.

Material:

- Stainless Steel Profiles: Austenitic stainless steel.
- Mild Steel Profiles: Pre-galvanised mild steel.
- Coach Screws: M6 x 50mm
- Masonry Plugs: High density polythene.

Masonry Hangers - Masonry Hanger for Solid Joists

- JHMs and HJHMs are one piece non-welded joist hangers for supporting timber joists, beams and trussed rafters from masonry walls.
- Side flange on deeper hangers is much higher than traditional style, providing greatly enhanced resistance to joist rotation.
- Use all specified fasteners. Set hanger back flange tight against block wall when built to desired level, then continue with additional courses to complete wall height.
- Minimum 3 courses of solid block (675mm masonry) required above hanger with mortar fully cured before applying load.
- JHM can be shot fired into steel.
- Return hangers do not satisfy the requirements for lateral restraint type hangers.

Angles & Ties - Heavy Duty Reinforced Angle Bracket

Reinforced angle brackets are suitable for structural applications in framing and wood-frame houses.

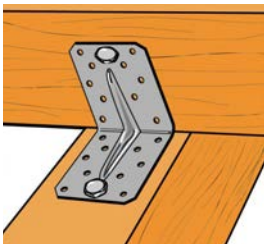
Suitable On:

- Supporting member: solid wood, glued-laminated wood, concrete, steel, etc.
- Supported member: solid wood, composite lumber, glued-laminated wood, triangular trusses, profiles, etc.

When to Use:

- Fastening of small trusses.
- Cladding plates, cladding uprights.
- Rafter anchors, cantilevers, headers, etc.

Material: Pre-galvanised mild steel.



BPC Code	Size	Qty.
926000020	90x90x90mm	100

Angles & Ties - Light Reinforced Angle Bracket

Light reinforced angle brackets are used to assemble small structural joinery for internal and external applications.

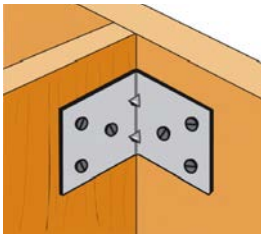
Suitable On:

- Supporting member: solid wood, composite lumber, glued-laminated wood, triangular trusses, profiles, etc.
- Supported member: wood, concrete, steel, etc.

When to Use:

- Interior fittings, furniture, small frames, etc.

Material: Pre-galvanised mild steel.



BPC Code	Size	Qty.
926000018	40x40x40mm (AP/444)	100

Angles & Ties - Nail Plate Angle Bracket

Simple angle bracket which is very versatile, used for timber to timber connections.

Suitable On:

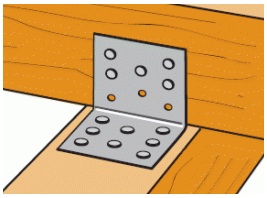
- Wood to wood connections.

When to Use:

- To strengthen existing timber assemblies.

Material: Pre-galvanised mild steel.

BPC Code	Size	Qty.
926000019	60x60x40mm	100



Angles & Ties - Framing Anchors

- The A34 / A35 anchor's exclusive bending slot allows instant, accurate bending on site for all two and three-way ties
- Balanced, completely reversible design allows the A35 to be used to secure a wide variety of connections

Material: Pre-galvanised mild steel.

Bead & Mesh - Expanded Metal Lathing

Ideal for use as a general reinforcement mesh. DML Expanded Metal Lathing is widely used as a backing to help prevent cracks occurring where different materials meet.

Installation:

- All metal components used in any particular application must be of the same material type.
- Fix with the mesh length running across the supports (at max 350mm centres) with strand sloping downwards and away from the face of the coating.
- Timber: Using 7mm headed plasterer's nails 38mm long, or 32 x 2mm staples, fix to each support starting from the centre of sheet.
- Angle fixings away from the centre to give the lath the necessary tension.
- Steel: Bend 1.2mm tying wire into long "U"shapes and tie lath at 100mm centres by pulling tight and twisting. When cutting wire ends, ensure that they are not left near the surface of the plaster.
- Sheet ends should be overlapped by 50mm on supports and wired together at 150mm centres.
- Sheet sides should be overlapped by a minimum of 25mm and wired together at 150mm centres in timber and steel applications.

925000033	2.4mx700mm 26G, Galvanised	10

Bead & Mesh - Ribbed Metal Lathing

Plaster backing for walls, ceilings and partitions. RBL Rib Lath provides plaster backing and is also suitable for the refurbishing of damaged or deteriorated face of masonry walls. Available in galvanised and stainless steel.

Installation:

Fixing of lath should follow BS EN 13914-1:2005 Internal Plastering and BS EN 13914- 2:2005 External Rendering.

The apex of rib lath should always be in contact with the fixing background.

Fixing of lath should follow BS EN 13914-1:2005 Internal Plastering and BS EN 13914-2:2005 External Rendering.

The apex of rib lath should always be in contact with the fixing background.

Fixing to metal or timber supports:

Timber: Use 38 x 7mm plasterer's nails or 32 x 2mm staples to fix with ribs running at 90° to timber studs which should be at a maximum 600mm centres.

Metal: Use 1.63mm or two strands of 1.22mm galvanised mild steel wire to tie around the rib where it crosses each steel stud.

Steel studs should be at maximum 600mm centres. To join sheets of Rib Lath, the edge ribs should be overlapped and the edges tied at 150mm centres with 1.22mm tying wire.

Where the ends of the lathing finish in front of a support, overlap by 50mm, otherwise sheets should be overlapped by 100mm with two 1.63mm ties used with each overlapping rib.

Fixing to solid backgrounds: The ribs of the lath should be held firmly against the background by the use of fixings placed at 600 mm centres.

End edges should be overlapped by 50mm, side edges by 25mm and tied or screwed at 150mm centres.

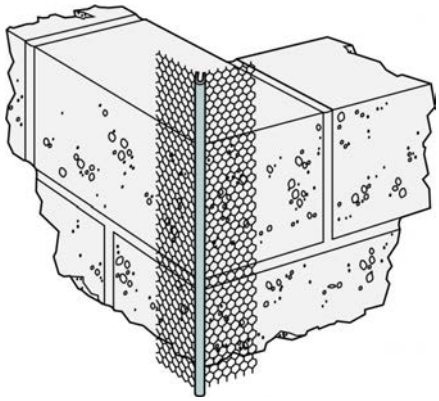
Provide added strength and stability.
- Galvanised or stainless steel finish.
- Assists resistance to tensile stresses where settlement occurs. Easily incorporated into mortar course, coiled for ease of handing.

Installation:
- All metal components used in any particular application must be of the same material type.
- Gloves should be worn to protect hands from sharp metal edges.
- Position the mesh within the masonry bed joints, providing a minimum of 25mm cover to external faces.
- Overlap by a minimum of 75mm if joining two lengths together. The mesh can be laid every third brickwork course for most reinforcement.

Bead & Mesh - Mini Mesh Bead



Mini Mesh Bead (25mm wing, 3mm plaster depth)
- Designed for use with one coat plaster work down to a 3mm finish.
- Fine mesh wings to provide an excellent plastering key.

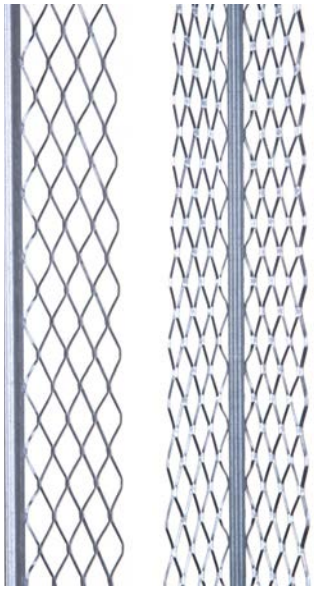
Installation:

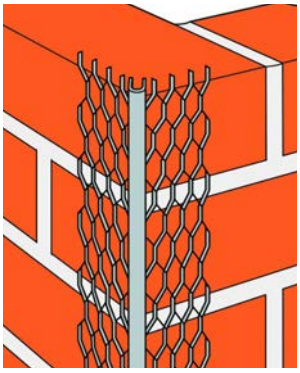
Installation usually achieved by pressing the wings firmly into plaster dabs placed at approximately 600mm centres both sides of the arris. The wings may alternatively be embedded into the first coat of plaster for normal two-coat work.

Beads may be cut to size as required by using a hacksaw and snips. Beads should be stored off the ground and in dry conditions during site work.

BPC Code	Size	Qty.
925000010	2.4m (MAB/2.4)	50
925000011	2.7m (MAB/2.7)	50
925000012	3.0m (MAB/3.0)	50

Bead & Mesh - Standard Angle Bead





Angle Bead (45mm wing, 13mm plaster depth)
- Helps for a true, straight arris
- Designed to prevent chipping and cracking to vulnerable corners.
- Use with two coat plaster application.

Installation:

Installation usually achieved by pressing the wings firmly into plaster dabs placed at approximately 600mm centres both sides of the arris. The wings may alternatively be embedded into the first coat of plaster for normal two-coat work.

Beads may be cut to size as required by using a hacksaw and snips. Beads should be stored off the ground and in dry conditions during site work.

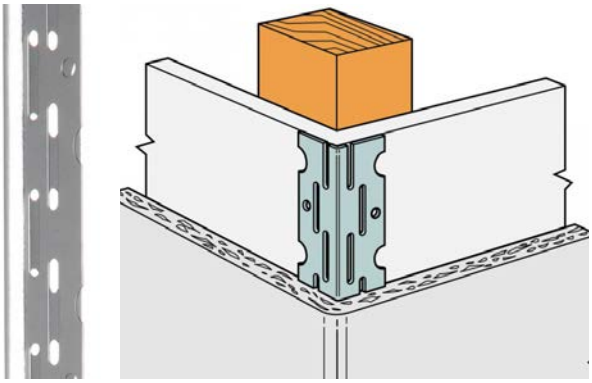
Bead & Mesh - Thin Coat Bead



Thin Coat Bead (25mm wing, 3mm plaster depth)

- Designed for use with one coat plaster work down to a 3mm finish.
- Perforated wings to provide an excellent plastering key.

Installation:

Installation usually achieved by pressing the wings firmly into plaster dabs placed at approximately 600mm centres both sides of the arris. The wings may alternatively be embedded into the first coat of plaster for normal two-coat work.

Beads may be cut to size as required by using a hacksaw and snips. Beads should be stored off the ground and in dry conditions during site work.

Bead & Mesh - Plaster Stop Bead, Thin Coat

Plastering and rendering made simple.

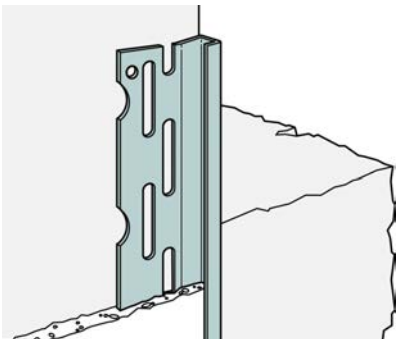
- Products simply fixed with plaster dabs or nails.
- Edges, arrises, corners, joints and abutments all easier to form.
- Designed to minimise potential chipping, cracking and associated damage.

Thin coat plaster stop bead (30mm Perforated Wing)

- Provides a neat finish plaster edge wherever required.
- Numerous applications internally including those at openings, abutment of walls and for ceiling finishes.

Installation:

Edge beads may be fixed by dabs or by masonry nails of similar material. Plasterboard Edge Bead: Fix the perforated wing flush to the board face before applying final skim coat. The bead may be reversed by fixing the wing to the board's inner surface.



BPC Code	Size	Qty.
925000021	10mmx2.4m, Galvanised	50
925000024	13mmx3m, Galvanised	50

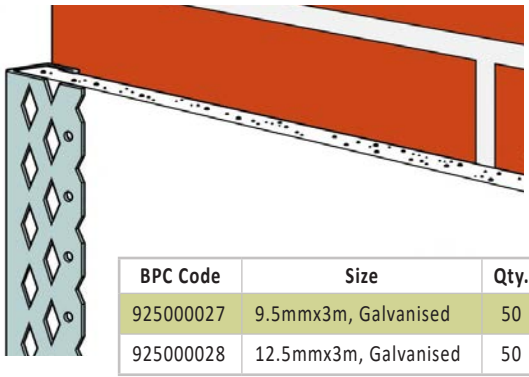
Bead & Mesh - Plasterboard Edge Bead

Plastering and rendering made simple.
- Products simply fixed with plaster dabs or nails.
- Edges, arrises, corners, joints and abutments all easier to form.
- Designed to minimise potential chipping, cracking and associated damage.

Plasterboard Edge Bead (25mm Wing)
- Provides reinforcement for plasterboard edges.
- Suitable for 9.5mm or 12.5mm plasterboard.

Installation:
Edge beads may be fixed by dabs or by masonry nails of similar material. Plasterboard Edge Bead: Fix the perforated wing flush to the board face before applying final skim coat. The bead may be reversed by fixing the wing to the board's inner surface.



BPC Code	Size	Qty.
925000027	9.5mmx3m, Galvanised	50
925000028	12.5mmx3m, Galvanised	50

Bead & Mesh - External Render Stop Bead

Plastering and rendering made simple.
- Products simply fixed with plaster dabs or nails.
- Edges, arrises, corners, joints and abutments all easier to form.
- Designed to minimise potential chipping, cracking and associated damage.

External Render Stop Bead (16mm-19mm Render Depth, 45mm Wing)
- Designed to provide an aesthetic, enhanced weathering detail.
- Provides reinforcement to resist impact damage.
- Use stainless steel for average or high exposure conditions and coastal areas.

Installation:
Edge beads may be fixed by dabs or by masonry nails of similar material. Plasterboard Edge Bead: Fix the perforated wing flush to the board face before applying final skim coat. The bead may be reversed if required by fixing the wing to the board's inner surface.

PVC-u plasterers beads are manufactured from high impact and ultra violet resistant PVC-u for extruded profiles and in fire conditions.
- Superior corrosion resistance.
- Convenient, easy to cut lengths on site.
- Light and easy to transport.
- Resistant to breakage.
- UV resistant.

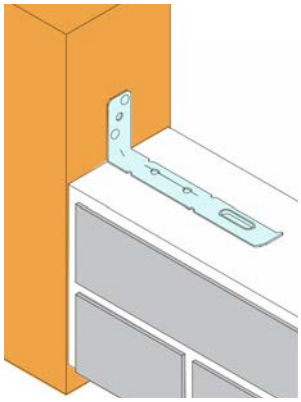
Plaster Stop Bead

Masonry Connectors - Frame Tie

- When fastening windows, door frames etc to masonry the 1.5mm pre-galvanised frame tie provides enhanced mortar keying and reduces the risk of injury from sharp edges.
- Reinforced fixing holes and pressed channel cross section ensure rigid fixing.



BPC Code	Size	Qty.
926000022	150mm Bend VE7-150-GMS, Galvanised	250

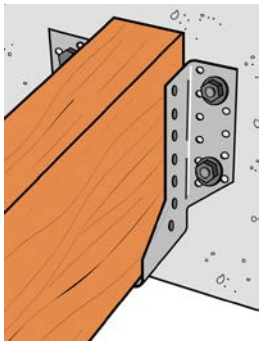
Masonry Hangers - Face Fix Hangers



- The SAE range is a heavy duty hanger designed for applications requiring additional strength
- Bolt holes for 12mm fasteners into the face
- Not recommended for bolted applications
- Hanger depth is to be at least 60% of the carried member depth to prevent rotation, unless additional lateral restraint is added to the top of the carried member
- SAE hangers can be installed by filling all round holes, or all bolt holes, with the specified fasteners

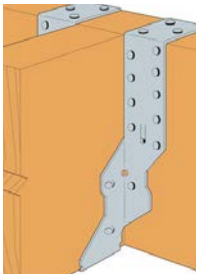
Timber Hangers - Timber to Timber Joist Hanger



- JHA's are a one piece, non welded, joist hanger for supporting timber joists from timber members.
- Provides great support with ease of installation
- Must use square twist nails throughtout
- Wider strap provides more surface area on the supporting timber and allows increased nail spacing, enhancing the performance of the critical hanger-to-support part of the connection
- Min and max nailing schedules are stamped into the strap providing correct installation information for site operatives
- Speed prong holds the hanger in position to allow easier attachment. The installer no longer has to try to hold hanger, joist and nails with one hand and swing a hammer with the other!
- Features a location tab which allows easier alignment of the hanger

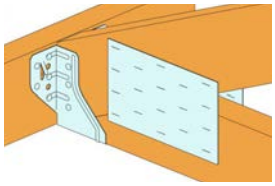
Timber Hangers - THM: Truss Hanger Mono

The THM is a joist hanger for supporting mono trusses from timber members. The THM hanger offers two installation options:
- Square twist nails only.
- Square twist nails and double shear nailing.

Features speed Prongs for ease of installation.
Material: Pre-galvanised mild steel.

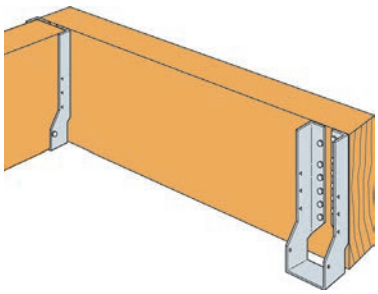


JMC Code	Size	Qty.
920000057A	THM230/44 230x44mm	50

Timber Hangers - Face Fix Concealed Flange Hanger

The IUC is a face mounted concealed flange hanger for solid timber sections or engineered joists.
Material: Pre-galvanised mild steel

JMC Code	Size	Qty.
920000063A	IUC142/47	

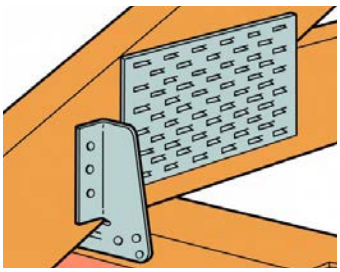


Timber Connectors - Truss Clip

- The TCP truss clip attaches girders, trusses and rafters to wall plates to provide wind restraint
- May be used for general purposes, strongback attachments as all-purpose ties wherever one member crosses another
- Speed prong provides temporary attachment for ease of installation
- Obround holes for easier nail driving
- Use specified fasteners

JMC Code	Size	Qty.
920000175A	TCP47 47mm	

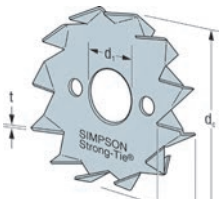
BPC Code	Size	Qty.
926000016	38mm	100

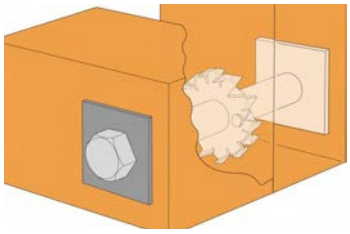


Timber Connectors - Double Sided Tooth Plate

- Single sided and double sided connector plates for enhanced bolt performance in timber

BPC Code	Size	Qty.
926000023	50mm (inner M12) (DSTC/50)	200





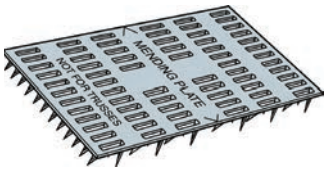
Timber Connectors - Mending Plate

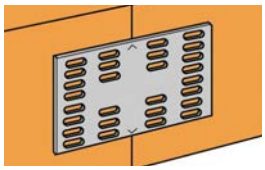
For assembly, use a wooden wedge so as not to damage the plate surface. Easy to cut to adjust precisely to the dimension. Bends in the middle to form a straight angle bracket.

When to Use:

- Jointing of 2 pieces.
- Reinforcement of damaged or split assemblies.
- Boxes, etc.

Material: Galvanised steel.





BPC Code	Size	Qty.
926000047	50x100mm (PP/50X129)	250

Timber Connectors - Nail Plate

Nail plates can be used in various applications, in particular for jointing or the connection of wood elements in the same plan.

Benefits:

- Versatility of applications.
- Can be bent on site.

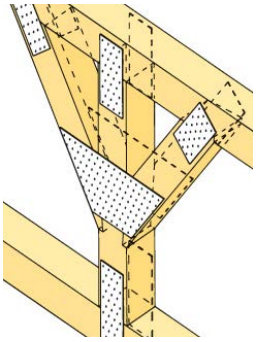
Suitable On:

- Supporting member: solid wood, glued-laminated wood, composite lumber, etc.
- Supported member: solid wood, glued-laminated wood, composite lumber, triangular trusses, profiles.

For Use With:

- Post/beam connection.
- Jointing.
- Repairs.
- Assemblies requiring a special bending on site, etc.

Material: Pre-galvanised mild steel.



JMC Code	Size	Qty.
920000024A	NP100/140 100x140mm	50

Straps - Light / Heavy: Restraint

- Designed for vertical and horizontal restraint when connecting timber floor and roof systems to masonry walls
- Heavy restraint straps meet requirements for lateral restraint of roof trusses, rafters and joists tied into masonry walls
- Light restraint straps are designed for vertical loads such as wall plates on top of masonry walls.

Material: Pre-galvanised mild steel.

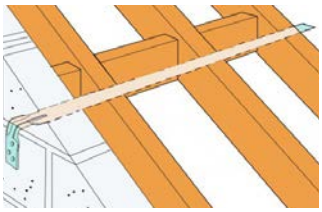
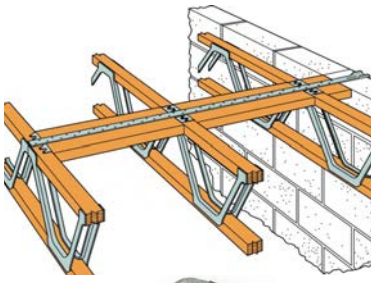
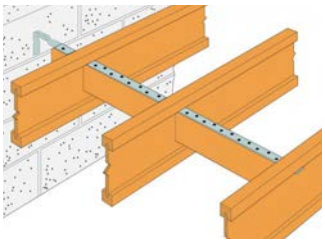
Straps - Heavy Engineered







- The innovative design of these new lightweight straps allows ease of handling and installation while maintaining the structural strength and robustness of much heavier weight straps
- Designed for vertical applications, eg holding down wall plates
- Formed edge design gives additional strength on bend
- Lighter, less than 40% of the weight of traditional straps
- Quicker to install - can fit over the top of floor joists and truss bottom chords
- Easier to course with blockwork
- No need to notch joists

Material: Pre-galvanised mild steel.

JMC Code	Size	Qty.
920000034A	HES12B10 1200mm Bend	10

Straps - Herringbone Joist Strut

- Superior alternative to unreliable, slow and costly timber struts.
- Meets bracing requirements for long span domestic floors
- Generally required at centre of span when floor joists exceed 2.5 metres. Spans exceeding 4.5 metres require two rows spaced at 1/3 and 2/3 span.

Material: Pre-galvanised mild steel.

905T130RIH	54mm blade length, Tungsten carbide-dressed, For fast cuts
905T341HMH	105mm blade length, 4.2mm tooth pitch, Tungsten carbide-dressed, For coarse cuts
905T118EHH	50mm blade length, 1.1mm tooth pitch, Tungsten carbide teeth, For fast cuts

TYPES OF TOOTHING

Offset - Rough and fast cut for working on all types of wood, plastic, non-ferrous metals and aluminium.
Offset and diagonally sharpened teeth - Fast and moderately clean cut for working on all types of wood and plastics.
Regular teeth (pull cut) - Rough and fast cut for working on all types of wood, plastic, non ferrous metals and aluminium.
Variable tooth pitch - For example 10-14 teeth per inch (TPI). For use in wood and metal or wood with metal residue.
Wavy set teeth - Fine and clean cut in iron, steel, aluminium and non-ferrous metals.
Conically ground blade and diagonally sharpened teeth - Very clean and precise cut for all types of wood and plastic.
Push cut teeth - For very clean and splinter-free surface cuts.
"M" teeth - General-purpose saw blade for almost any material. Fast cut: up to twice as fast as conventional teeth. Up to 3 times the service life of conventional saw blades.

TIPS AND TRICKS

Toothing - We recommend you use fine-teeth blades in thin material and coarse teeth in thick material
Service life - To increase the service life and wear-resistance of saw blade, coolant-like cutting oil (for steel or metals), turpentie (for aluminium) or water (for plastics or plexiglass) should be used appropriately.
The correct tooth pitch - The tooth geometry and the tooth pitch, wihich is a measure of the distance between the timps of the teeth, determine the cutting characteristics and the saw speed. 2-3 teeth should always be engaged with the material and this is the rule of thumb for deciding which tooth pitch to use.

Recipro Blades

Recipro saw blades are compatible with machines: AEG, Atlas Copco. Blacker & Decker, Bosch, Elu, Fein, Flex, Hitachi, , Makita, Metabo, Milwakee, Porter cable, Rems, Rockwell, Roller, Skil

Power Blades

THE NEW, MULTIFUNCTION ACCESSORY FOR OSCILLATING TOOLS MEETS PROFESSIONAL QUALITY STANDARDS

The new, comprehensive range has been designed for all conventional applications and materials. Specially selected materials and careful processing guarantee extreme precision and long durability.

- Available for all conventional systems and machines: UN, SuperCut and the new Starlock System
- Comprehensive range for wood, metal, stone and concrete as well as plastics and silicone
- Very long service life thanks to accurate processing and high-grade materials

SIGMA

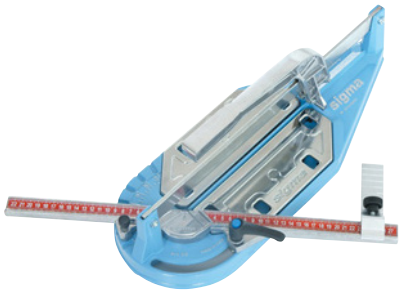
Sigma is an Italian based company, specialising in tile installation tools they manufacture top notch products that both increase the efficiency at which tilers can work, as well as the accuracy of the work being done. These tools are crafted from tempered steel that has been coated with zinc to ensure a long service life. What's more, the scoring wheel of all pull handle tile cutters are diamond tipped, for superior cutting power.

Sigma 2G Tile Cutter, 37cm

The SIGMA 2G is known as the Baby Professional tile cutter! It is a very low weight, compact and precise tile cuter which can cut different tile thicknesses with no need for adjustments.

Effective cutting length	37 cm
Diagonal cut	26 cm
Max. cutting thickness	15 mm
Net weight	2.2 kg

JMC Code
SIG2G



Sigma 2B3 Tile Cutter, 66cm

The 2B3 a light weight compact tile cutter which will cut different thickness tiles without the need for adjustment. The swivelling measurement bar supporting the tile rotates through 45° in both directions and is pivoted at the centre of the cutting line, allowing the real measurement of the cut to be obtained.

Effective cutting length	66 cm
Diagonal cut	46 cm
Max. cutting thickness	16 mm
Net weight	5.9 kg

JMC Code
SIG2B3

Sigma Series 4

The new Series 4 is the maximum evolution of the tile cutters completely redesigned offers maximum cutting performance and practicality! Years of research and improvement have merged to create a new line that combines innovation, precision mechanics and design to to offer a unique cutting experience.
